

Topco kits c/I Spitfire

The basic kit will cost £14 plus £3.00 p&p and includes the following laser cut parts -

- Fuselage centre (10mm balsa)
- 2 fuselage outers (thin ply)
- 2 wing panels (1/4" balsa)
- Tailplane (3mm balsa)
- Elevator (3mm balsa)
- Fin (1.5mm ply)
- Wing dihedral brace (3mm ply)
- 2 bellcrank mounts (3mm ply)
- Lead out guide (1.5mm ply)
- A strip of scrap balsa (for strengthening the joint between the engine mount and fuselage)
- Engine mount (6mm ply)
- 2 engine spacers, used to change the centre of gravity (2mm ply)
- Plan & building instructions

Below is a picture of the contents of a basic kit:

The full kit will cost £18 plus £3.00 p&p and includes the basic kit plus:

- 4 engine mounting screws
- 2 fuel tank mounting screws
- Bellcrank
- A strip of aluminium (for homemade horns)
- A commercial horn (if you don't want to use the aluminium strip)
- Bellcrank mounting bolt, with 3 nuts and 2 washers
- 3 pieces of piano wire for leadouts and pushrod
- A piece of non-stretch bandage for hinging elevator

Below is a picture of the extra contents added to the basic kit:

The complete package Complete Spitfire Scramble package costs £42 plus £4.00 p&p and includes the full kit (as above) plus:

- Cox Sure Start 049 engine
- Starter spring and cam
- 6x4 Kavan propeller and retaining bolt
- 2cc fuel tank and pipe
- Glow clip, cable and battery box
- Basic control handle and flying line

Remember adhesives, paints and fuel are not included and require purchasing locally. The glow battery requires a D cell battery, preferably a high capacity re-chargeable cell, as the Cox glow plug requires considerable current.

These prices are for the first batch and once our small stock of engines is exhausted, we may have to increase costs.
