It was the second month of our new speed competition, run to a very simple 5 lap formula that once again produced four entrants who were able to submit their times. All used the 42 foot lines. Two pilots used a PAW 1.5cc diesel engine, one an AM 15 whilst the winner, once again used a well-developed Frog 150R. Congratulations to Dick James on his second win, by only a small margin this month.

The winning speed was lower this month but speeds are rapidly improving in the lower echelons of the competition. Full details of this event and other Wessex League competitions are available on our very own website: [www.wessexaml.co.uk](http://www.wessexaml.co.uk)
