The second month gave limited opportunities to fly due to rain and wind, subsequently only five scores were entered. Ken Taylor used his newly rebuilt Frog 150R to good effect to win easily this month. On the other hand Chris Hague's newly rebuilt Frog 150R resides at the other end of the table. Room for improvement there then! The only PAW to be flown this month just managed 70 MPH in the hands (!) of James Parry. Gus Hague produced a really good flight to record 72 MPH and secure third place for the second month in a row.

June and July are months to fly on your own patch.
