The control line day at Cashmoor at the beginning of the month enjoyed superb weather and enabled six pilots to fly their speed times. All the Cashmoor times were remarkably close, only differing by six tenths of a second. And then later in the month the times came in from the Crawley flyers and claimed the top three places. It's beginning to look like we need two divisions! Or, in reality, we have to just try a bit harder!

We still have Ken Taylor in the lead flying at 80 MPH and Dick James finishing second with a speed of 76 MPH, a significant improvement over last month. Bob Taylor has slotted straight into third spot with his first entry this year. However, Den Saxcoburg, Pete Happle (flying Chris's model) and Chris Hague managed to record the identical speed of 69.2 MPH at Cashmoor. Gus Hague and Bill Longley (both flying Chris's overworked model) were next up at 67.2 MPH closely followed by a vastly improving James Parry at 66.2 MPH.
