August seemed to be the month when new ideas were tried in order to gain speed, some worked and others didn't. James Parry made a big step forward gaining lots more revs and increased his speed up to 72 MPH. A small improvement (spinner size change – bigger or smaller? That's the question!) resulted in only a small improvement for Chris Hague who managed to reach a speed of 70 MPH for the first time. From the Isle of Wight Caulkheads, Den Saxcoburg maintains his third position overall. Remember it is the best four scores to count.
