This was the third month of this competition and we have a maximum score of three 10's from Jeff, well done Jeff. Chris managed two 10's but was still beaten by Andrew with three flights of over nine minutes. Mr consistency, Malcolm, has placed fourth and hence scored 21 points each month so far. Is it possible that Malcolm could finish in fourth place every month? There's a challenge Malcolm!

On Sunday we held the Round Robin event at Collingbourne Kingston, this was Round 3 of the series. Round 4 is at the same venue on Sunday 6 August, see you all there.

After three months we are halfway through the competition. Don't forget to make the best of any good weather in July.
