This was the fourth month of this competition and we have four pilots scoring just one 10 minute flight out of their three flights. Mr consistency, Malcolm, has placed fifth **again** and hence scored 21 points each month so far. Is it possible that Malcolm could finish with the same number of points every month? There's a challenge Malcolm!

On Sunday 6 August we have the next Round Robin event at Collingbourne Kingston, this will be Round 4 of the series. Round 5 is at Cashmoor on Sunday 17 September.

After four months we are over halfway through the competition. Don't forget to make the best of any good weather in August.
